

## TEN TRADE FUNDED TRADER PROGRAM (TTFT)

Our Funded Trader Program is the perfect way for you to benefit from trading with OUR money and enjoy the fruits of your success. All you have to do is put your trading skills, market knowledge, and bright strategies to work and profit from your successful trades with an account funded by us.

We are on a search for profitable traders. We fund profitable traders with real money and split profit monthly. Prove to us that you know how to trade via any of our funding programs and get funded up to \$500,000.

You can trade overnight and over the weekend. You can trade the news. You can trade without stop loss. EAs are allowed on live account but not on evaluation accounts

### Our Funding Models

1. Ten Express Evaluation
2. Instant Funding

## TEN EXPRESS EVALUATION PROGRAM

Prove to us that you know how to trade via our evaluation program and get funded up to \$500,000.

Our evaluation program is a 1-step process where you show us your trading prowess, once you pass, you get funded instantly

Pass our 1-stage evaluation and start trading your live account

Account Size	\$3,000	\$10,000	\$30,000	\$90,000	\$270,000	\$500,000
Profit Target	10%	10%	10%	10%	10%	10%
Daily Drawdown	6%	6%	6%	3%	3%	3%
Overall Drawdown	9%(\$270)	8%(\$800)	7%(\$2100)	5%(\$4500)	5%(\$13500)	5%(\$25000)
Minimum Trading Days	5	5	5	5	10	10
Trading Period	Unlimited	Unlimited	Unlimited	Unlimited	Unlimited	Unlimited
Available Leverage	1:100	1:100	1:100	1:100	1:100	1:100

Account Size	\$3,000	\$10,000	\$30,000	\$90,000	\$270,000	\$500,000
Registration fee	\$29	\$96	\$255	\$399	\$997	\$1497

## Our Evaluation Criteria

### 1. 10% Profit Target

To pass our one-phase evaluation, you only need to achieve a profit target of 10% without violating any of our rules. Whenever you pass the evaluation and get access to a live funded account, there is no more target.

### 2. Daily Drawdown

- Mini - 6%, Bronze - 6% and Silver - 6%
- Gold - 3%, Diamond - 3% and Silver - 3%

#### For Mini, Bronze and Silver accounts:

- If equity on a \$10,000 account is 10500 at rollover time today (server time 00:00), drawdown must not exceed 6% before the next rollover time (server time 00:00). This mean equity must not go below \$9870 before the next rollover time (server time 00:00).

#### For Gold, Diamond and Master accounts:

- If equity on a \$90,000 account is \$95000 at rollover time today (server time 00:00), drawdown must not exceed 3% before the next rollover time (server time 00:00). This means equity must not go below \$92,150 before the next rollover time (server time 00:00).

### Scenario:

You started trading with a \$10,000 evaluation account and made a closed or floating profit of \$900. Now your equity at rollover time 00:00 server time is \$10,900. You continued trading and had a floating loss of \$654 (6% daily drawdown). This is a hard violation of the daily drawdown rule, trader has failed the challenge and account is disabled.

Result: You fail the challenge.

Note that once daily drawdown is triggered, it activates close all positions and equity/balance may increase or decrease before all the trades close out especially if the trader traded with large lot size.

### 3. Overall Drawdown

- Mini - 9%, Bronze - 8% and Silver - 7%
- Gold - 5%, Diamond - 5% and Silver - 5%
- The overall drawdown is calculated based on the initial balance of the account.

Example: If you have a \$3,000 Mini account, your equity must not go lower than \$2,730 (9% drawdown from the initial \$3,000 balance)

Example: If you have a \$90,000 Gold account, your equity must not fall below \$85,500 (5% drawdown from the initial \$90,000 balance)

### 4. Profit Split

Profit Split is 70/30 on the live funded account

### 5. Payout

**Monthly Payout:** The standard payout for live accounts on the Funded Trader Program is set at a ratio of 70/30. This means that traders will receive 70% of the profits made within 30 calendar days.

If a trader successfully achieves any % increase in their live trading account within 30 calendar days with a minimum of 5 active trading days, they will be eligible for a payout.

**Accelerated Payout:** Once you are on your live funded account, there is an exciting opportunity to receive immediate compensation.

If a trader achieves a 10% increase in their trading account after 5 active minimum trading days. They will be eligible for an early payout, regardless of the monthly time frame.

### 6. Scaling Plan

Once you are on your live funded account, you have the option to withdraw profit or request to scale up your trading account to the next account size on our plan each time you make 10% profit.

You cannot withdraw and scale! once funded trader withdraws profit on an account such an account is no longer eligible for scaling. Maximum you can get scaled up to is \$500,000!

However, please note that the \$3,000 account is not **eligible** for scaling, but can only scale up with a \$10,000 account

For example, you grow our \$10,000 account to \$11,000, and you request for scaling, we will scale you directly into the \$30,000 live funded account.

## 7. Consistency Rule

The consistency rule is designed to ensure that traders on The Funded Trader program achieve steady and sustainable profits while effectively managing risk.

Consistency rule has nothing to do with daily profits or profits per position but with lot size traded. The starting lot size which is the lot size of the first trade position on the evaluation account is the reference point.

Using the starting lot as reference, traders can reduce lot size on subsequent trades by 50%(0.5x) of the starting lot size.

Using the starting lot as reference, trader can increase lot size on subsequent trades by 200%(4x) of the starting lot size

### Examples of Consistency Rule Applied to Evaluation account

1. Consider a \$10,000 evaluation account with a profit target of \$1,000 (10%) for evaluation. You have successfully hit your 10% profit target of \$1000.

The profit was made within 5 minimum trading days using the following positions

0.5

0.25

0.5

1.0

2.0

This trading pattern is consistent and adheres to the consistency rule

Result: Evaluation passed

2. Consider a \$10,000 evaluation account with a profit target of \$1,000 (10%) for evaluation. You have successfully hit your 10% profit target of \$1000 but the profit was made in 1 trading day using one position of 2.0 lot size.

You continue to trade with 0.01 to 0.49 lot size deliberately to cover the 5 minimum trading days!

The profit was made using the following positions

2.0

0.01

0.01

0.05

0.10

This trading pattern is inconsistent and violates the consistency rule

Result: Evaluation Failed

3. Consider a \$10,000 evaluation account with a profit target of \$1,000 (10%) for evaluation. You started trading with 0.01 lot size and adhered to the consistency rule on subsequent positions.

All of a sudden you increased the lot size to 2.0 and hit your 10% profit target of \$1000.

The profit was made using the following positions

0.01

0.01

0.01

2.0

0.01

This trading pattern is inconsistent and violates the consistency rule

Result: Evaluation Failed

## **8. Expert Advisors and Latency Arbitrage**

All Robots including high frequency trading bots are not allowed on our Evaluation program.

High frequency trading bots are bots that do not hold trade for up to a minute.

Latency Arbitrage is a high frequency trading strategy used to front-run trading orders. We do not accept latency arbitrage and we reserve our rights to cancel any trade under latency arbitrage.

## **9. Third party Copiers**

Copy Trading (use of third-party copiers) is not allowed on evaluation and live funded accounts. You are allowed to use a trade copier as long as you are copying trades from TenTrade Social Trading Platform.

## **10. Refer and Earn**

Get 10% in commissions by referring friends who register and purchase a funded account through your unique link. Sign up, share your link, and earn rewards for each successful referral.

## **11. The only ways you fail the Evaluation?**

1. If you violate the overall drawdown of starting balance
2. If you violate the daily drawdown from starting equity at rollover (00:00) server time
3. Hedging: We do not allow hedging
4. Violating ea and copy trading rules
5. Inactivity of 30 days. That is, if you do not place a trade within a 30 day period from the first trade.
6. Latency Arbitrage.
7. Violate consistency rule.
8. Using prohibited trading strategies

## **12. Prohibited trading strategies**

- High-frequency trading
- Ultra-fast scalping
- Latency arbitrage trading
- Any tick scalping strategies
- Any reverse arbitrage trading
- Any hedge arbitrage trading
- Hedging between different accounts

If our risk team traces prohibited strategies, accounts involved will be lost with no refund of initial fee.

The aim of the TenTrade funded trader programme is to discover and support consistently profitable traders.

Available Leverage	1:100	1:100	1:100	1:100	1:100	1:100
Profit Split	70/30					
Registration fee	\$100	\$300	\$900	\$2700	\$5000	On Request

**For Mini, Bronze and Silver accounts:**

- If equity on a \$10,000 account is 10500 at rollover time today (server time 00:00), drawdown must not exceed 6% before the next rollover time (server time 00:00). This mean equity must not go below \$9870 before the next rollover time (server time 00:00).

**For Gold, Diamond and Master accounts:**

- If equity on a \$90,000 account is \$95000 at rollover time today (server time 00:00), drawdown must not exceed 3% before the next rollover time (server time 00:00). This means equity must not go below \$92,150 before the next rollover time (server time 00:00).

**Scenario:**

You started trading with a \$10,000 evaluation account and made a closed or floating profit of \$900. Now your equity at rollover time 00:00 server time is \$10,900. You continued trading and had a floating loss of \$654 (6% daily drawdown).

This is a hard violation of the daily drawdown rule and the trader is ineligible for a payout while the account is permanently disabled.

Note that once daily drawdown is triggered, it activates close all positions and equity/balance may increase or decrease before all the trades close out especially if the trader traded with large lot size.

**3. Overall Drawdown**

- Mini - 9%, Bronze - 8% and Silver - 7%
- Gold - 5%, Diamond - 5% and Silver - 5%

The overall drawdown is calculated based on the initial balance of the account.

Example: If you have a \$3,000 Mini account, your equity must not go lower than \$2,730 (9% drawdown from the initial \$3,000 balance).

Example: If you have a \$90,000 Gold account, your equity must not fall below \$85,500 (5% drawdown from the initial \$90,000 balance)

#### 4. Profit Split

Profit Split is 70/30 on the live funded account

#### 5. Payout

**Monthly Payout:** The standard payout for live accounts on the Funded Trader Program is set at a ratio of 70/30. This means that traders will receive 70% of the profits made within 30 calendar days.

If a trader successfully achieves any % increase in their live trading account within 30 calendar days with a minimum of 5 active trading days, they will be eligible for a payout.

**Accelerated Payout:** Once you are on your live funded account, there is an exciting opportunity to receive immediate compensation.

If a trader achieves a 10% increase in their trading account after 5 active minimum trading days. They will be eligible for an early payout, regardless of the monthly time frame.

#### 6. Scaling Plan

Once you are on your live funded account, you have the option to withdraw profit or request to scale up your trading account to the next account size on our plan each time you make 10% profit.

You cannot withdraw and scale! once funded trader withdraws profit on an account such an account is no longer eligible for scaling. Maximum you can get scaled up to is \$500,000!

However, please note that the \$3,000 account is not **eligible** for scaling, but can only scale up with a \$10,000 account

For example, you grow our \$10,000 account to \$11,000, and you request for scaling, we will scale you directly into the \$30,000 live funded account.

#### 7. Consistency Rule

The consistency rule is designed to ensure that traders on The Funded Trader program achieve steady and sustainable profits while effectively managing risk.

Consistency rule has nothing to do with daily profits or profits per position but with lot size traded. The starting lot size which is the lot size of the first trade position on the evaluation account is the reference point.

Using the starting lot as reference, traders can reduce lot size on subsequent

trades by 50%(0.5x) of the starting lot size.

Using the starting lot as reference, trader can increase lot size on subsequent trades by 200%(4x) of the starting lot size

### Examples of Consistency Rule Applied to live accounts

1. Consider a \$10,000 live account and you successfully hit a 10% profit target of \$1000 to qualify for accelerated payout.

The profit was made within 5 minimum trading days using the following positions

0.5

0.25

0.5

1.0

2.0

This trading pattern is consistent and adheres to the consistency rule

Result: You are eligible for pay accelerated payout

2. Consider a \$10,000 live account where you started trading with consistent lot size and adhered to the consistency rule on subsequent positions. You made a profit of \$500 within 30 calendar days with a minimum of 5 active trading days.

The profit was made using the following positions

0.5

0.25

0.5

1.0

2.0

This trading pattern is consistent and adheres to the consistency rule

Result: You are eligible for regular payout

3. Consider a \$10,000 live account and you successfully hit a 10% profit target of \$1000 to qualify for accelerated payout, but the profit was made in 1 trading day using one position of 2.0 lot size.

You continue to trade with 0.01 to 0.49 lot size deliberately to cover the 5 minimum trading days!

The profit was made using the following positions

2.0

0.01

0.01

0.05

0.10

This trading pattern is inconsistent and violates the consistency rule

Result: You are not eligible for accelerated pay out and lose the account

4. Consider a \$10,000 live account where you started trading with 0.01 lot size and adhered to the consistency rule on subsequent positions.

All of a sudden you increased the lot size to 2.0 and hit your 10% profit target of \$1000.

The profit was made using the following positions

0.01

0.01

0.01

2.0

0.01

This trading pattern is inconsistent and violates the consistency rule

Result: You are not eligible for accelerated pay out and lose the account

5. Consider a \$10,000 live account where you made a profit of \$500 within 30 calendar days with a minimum of 5 active trading days.

The profit was made using the following positions

2.0

0.01

0.01

0.01

0.01

This trading pattern is inconsistent and violates the consistency rule

Result: You are not eligible for accelerated pay out and lose the account

## **8. Expert Advisors and Latency Arbitrage**

Robots and high frequency trading bots are not allowed on our Evaluation program.

Robots are allowed on live funded accounts but high frequency trading bots are not allowed on live funded accounts

High frequency trading bots are bots that don't hold trade for up to a minute.

Latency Arbitrage is a high frequency trading strategy used to front-run trading orders. We do not accept latency arbitrage and we reserve our rights to cancel any trade under latency arbitrage.

## **9. Third party Copiers**

Copy Trading (use of third party copiers) is not allowed on evaluation and live funded accounts. You are allowed to use a trade copier as long as you are copying trades from TenTrade Social Trading Platform.

## **10. Refer and Earn**

Get 10% in commissions by referring friends who register and purchase a funded account through your unique link.

## 11. The only ways you lose a live account?

9. If you violate the overall drawdown of starting balance
10. If you violate the daily drawdown from starting equity at rollover (00:00) server time
11. Hedging: We do not allow hedging
12. Violating ea and copy trading rules
13. Inactivity of 30 days. That is, if you do not place a trade within a 30 day period from the first trade.
14. Latency Arbitrage.
15. Violate consistency rule.
16. Using prohibited trading strategies

## 12. Prohibited trading strategies

- High-frequency trading
- Ultra-fast scalping
- Latency arbitrage trading
- Any tick scalping strategies
- Any reverse arbitrage trading
- Any hedge arbitrage trading
- Hedging between different accounts

If our risk team traces prohibited strategies, accounts involved will be lost with no refund of initial fee.

The aim of the TenTrade funded trader programme is to discover and support consistently profitable traders.

Trading with high margins is considered a gambling strategy and is against the program's aims and objectives!

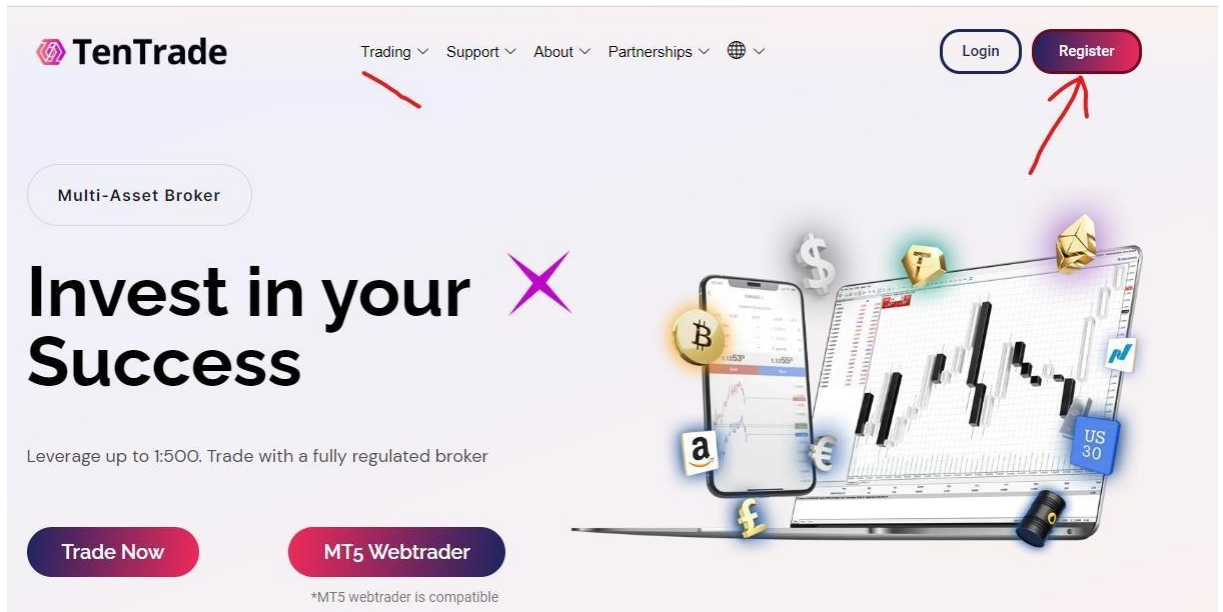

Our risk desk team analyses funded trading styles and strategies to ensure compatibility with TenTrade's funded trader program beliefs of trading as well as the aims and objectives of TenTrade funded trader programme.

Sign up, share your link, and earn rewards for each successful referral. All our general terms and conditions on account opening also apply

## HOW TO SUBSCRIBE?

### STEP 1 : REGISTER

Visit [www.tentrade.com](http://www.tentrade.com) and click on the register button to create an account or request for a registration link from TenTrade partner who sent you this brochure.

Once you click on the button, this page will open, fill in your information and you'll immediately be taken to the tentrade client portal. Also, you will receive an email from TenTrade containing your login details for next time you'd want to login to the client portal. Please check your inbox or spam folder.

**TenTrade** EN

### REGISTRATION DETAILS

I want to register as  
Individual Client

Title

First Name

Last name

Birthday Month Birthday Day Birthday Year

Country of Residence

Phone number
