2. Risk Disclosure & Acknowledgment

2.1 It is important for the Client to understand the risks involved before deciding to enter into a trading relationship with the Company. If the Client chooses to enter into a trading relationship with the Company, he should remain aware of the risks involved and be able to have adequate financial resources to bear such risks.

2.2 The financial instruments offered by the Company are high-risk products that are traded on margin and carry a risk of losing all Client's initial deposit. These kind of products can fluctuate significantly and present a high risk of capital loss, therefore these products may not be appropriate or suitable for all clients and the Client should seek independent advice should he is not able to understand the risks involved.

2.3 General Risks and Acknowledgements: The Client acknowledges, understands, agrees and accepts the risks including but not limited:

- a. The Company does not and cannot guarantee that funds deposited in the Client's Account for trading will not be lost as a result of the Client's transactions.
- b. The Client acknowledges that, regardless of any information which may be offered by the Company, the value of any investment in Financial Instruments may fluctuate downwards or upwards and it is even probable that the investment may become of no value.
- c. The Client acknowledges that he/she runs a great risk of incurring losses and damages as a result of the purchase and/or sale of any Financial Instrument and accepts that he/she is willing to undertake this risk.
- d. The use of historical data does not constitute a binding or safe forecast as to the corresponding future performance of the Financial Instruments to which the said Information refers.
- e. The Client is hereby advised that the transactions undertaken through the dealing services of the Company may be of speculative nature. Large losses may occur in a short period of time and may be equal to the total value of funds deposited with the Company.
- f. Some Financial Instruments may not become immediately liquid, for example, as a result of reduced demand and the Client may not be in a position to sell them or easily obtain information on the value of these Financial Instruments or the extent of the associated risks.
- g. When a Financial Instrument is traded in a currency other than the currency of the Client's country of residence, any changes in the

exchange rates may have a negative effect on its value, price and performance.

- h. A Financial Instrument on foreign markets may entail risks different to the usual risks of the markets in the Client's country of residence. In some cases, these risks may be greater. The prospect of profit or loss from transactions on foreign markets is also affected by exchange rate fluctuations.
- i. The Client should not purchase a Financial Instrument unless he/she is willing to undertake the risks of losing entirely all the money which he has invested and also any additional commissions and other expenses incurred.
- j. Under certain market conditions (for example but not limited to the following situations: force majeure event, technical failure, communications network failure, poor or no liquidity, market news or announcements etc.) it may be difficult or impossible to execute an order.
- k. Should the Equity of the Client be insufficient to hold current positions open, the Client may be called upon to deposit additional funds at short notice or reduce exposure. Failure to do so within the required time may result in the liquidation of positions at a loss and the Client will be liable for any resulting deficit.
- l. Trading on-line, no matter how convenient or efficient, does not necessarily reduce risks associated with currency trading.
- m. There is a risk that the Client's trades in Financial Instruments may be or become subject to tax and/or any other stamp duty, for example, because of changes in legislation or his/her personal circumstances. The Company does not warrant that no tax and/or any other stamp duty will be payable. The Client should be responsible for any taxes and/or any other duty which may accrue in respect of his/her trades.
- n. Before the Client begins to trade, he/she should obtain details of all commissions and other charges for which the Client will be liable. If any changes are not expressed in money terms (but for example a spread), the Client should ask for a written explanation, including appropriate examples, to establish what such charges are likely to mean in specific money terms.
- o. The Company will not provide the Client with investment advice relating to investments or possible transactions in investments or make investment recommendations of any kind.
- p. There may be situations, movements and/or conditions occurring at the weekend, at the beginning of the week or intra-day after the release of the significant macroeconomic figures, economic or political news that make currency markets to open with price levels that substantially differ

from previous prices. In this case, there exists a significant risk that orders issued to protect open positions and open new positions may be executed at prices significantly different from those designated.

6.2 The Company, may pay and/or receive fees/commission to/from third parties, provided that these benefits are designed to enhance the quality of the offered service to the Client and not impair compliance with the Company' duty to act in the best interests of the Client.

7. Client Money and Transfer of funds

7.1 The Company ensures to promptly place any Client money segregated from the Company's own accounts and opened with an approved bank and/or a payment provider that has been assessed by the Company and/or approved by the Company's Management. Any Client's money shall be paid into a segregated client bank account denoted as "Client" bank account.

7.2 Unless the Client notifies the Company in writing or otherwise, the Company may pass on Client money or allow another person, such as an exchange, a clearing house or an intermediate broker, to hold or control Client money where the Company transfers the Client money (a) for the purposes of a transaction for the Client through or with that person; or (b) to meet the Client's obligations to provide collateral for a transaction (e.g. a margin requirement for a derivative transaction). By accepting this Agreement, the Client gives his consent and authorizes the Company, where applicable, to transfer/hold his funds in other parties or business partners i.e liquidity providers for settlement purposes. The Company shall not be liable for the solvency, acts or omissions of any institution with which Client money are held.

7.3 The third party to whom the Company will pass money may hold it in an omnibus account and it may not be possible to separate it from the Client's money, or the third party's money in which case the Client will not have any claim against a specific sum in a specific account in the event of insolvency. The Company does not accept any liability or responsibility for any resulting losses.

7.4 By entering into this Agreement the Client agrees that the Company will not pay the Client interest on Client money or any other unencumbered funds.

7.5 Any amounts transferred by the Client to the Client's bank account will be deposited in the Client's Account at the "value date" of the received payment and net of any deduction/charges by the Client's bank account providers. In case the Client's account reaches a stop-out during the processing period of the deposit, the Company bears no responsibility for any losses suffered.

7.6 The Company acts in accordance with international anti-money laundering regulations and local anti-money laundering rules thus the transfer of funds and transactions are done based on these rules. For this purpose, Client's withdrawals should be made using the same method used by the Client to fund his Client Account and to the same remitter. The Company reserves the right to decline a withdrawal with a specific payment method and will suggest another payment method where the Client needs to proceed with a new withdrawal request, or request further documentation while processing the withdrawal request. Where applicable, if the Company is not satisfied with any documentation provided by the Client or if the company has reasonable grounds for suspecting that a Client violates Applicable regulations, then the Company will reverse the withdrawal transaction and deposit the amount back to the Client's Account and the Client will suffer the relevant Client's bank account provider's charges.

7.8 The Client acknowledges that in case where a Client's bank account is frozen for any given period and for any given reason the Company assumes no responsibility and Client's funds will also be frozen.

8. Client's Orders/Instructions & Execution of Orders

8.1 Execution of Orders: It is the Company's approach to take all sufficient steps to obtain the best possible result on behalf of its Clients when executing Client orders on Financial Instruments offered by the Company or receiving and transmitting orders for execution. The Client understands and acknowledges that the

Company will enter into transactions with the Client either as principal (counterparty) or an agent. The Company will be the contractual counterparty to the Client.

8.2 The Company, when executing orders, will obtain the best possible result for Clients, taking into account factors like price, costs, speed, likelihood of execution and settlement, size, market impact or any other consideration relevant to the execution of the order. Where the Company executes an order on behalf of a Client, the best possible result shall be determined in terms of the total consideration, representing the price of the financial instrument and the costs relating to execution, which shall include all expenses incurred by the Client which directly relate to the execution of the order.

8.3 For determining the importance of the execution factors indicated above, the following criteria are also taken into account:

- The characteristics of the Client
- The characteristics of the Client order;
- The characteristics of Financial Instruments that are the subject of that order;
- The characteristics of the execution venues to which that order can be directed.

8.4 The Client understands and confirms that all orders received by the Company from the Client are orders for execution outside a Regulated Market or MTF.

8.5 **Client's Orders/Instructions:** Orders may be placed with the Company once the Client gets access to the Company's Trading Platform. The Company will be entitled to rely and act on any Order placed on the Trading Platform without any further enquiry to the Client and any such Orders will be binding upon the Client.

8.6 The Company's Buy/ Sell prices for a given CFD are calculated by reference to the price of the relevant Underlying Asset. Third party reputable external resources (i.e. feed providers) obtain prices (Buy/Sell prices) of the Underlying Asset for a given CFD. The Company then uses the prices given by the feed providers to calculate their own tradable prices for a given CFD. The Company adjusts the Spread (i.e. the difference between the Buy/Sell prices), hence the prices it quotes to Clients compared to the prices it obtains from third party external reference sources may differ, as they include a Spread adjustment. The Company provides Quotes by taking into account the Underlying Asset

price. The Client acknowledges that such Quotes will be set by the Company at its absolute discretion.

- 8.7 Orders can be placed, executed and changed or removed within the trading hours for each CFD showed on the Company's Website, as amended from the Company from time to time and if they are not executed they shall remain effective through the next trading session (as applicable). The Company shall not be obliged to arrange for the execution of the Client's orders in respect of any CFD out of normal trading hours which appear on the Company's Website.
- 8.8 If any tradable instrument becomes subject to possible adjustments, the Company will determine the appropriate adjustment, if any, to be made to the opening/closing price, size, value and/or quantity of the corresponding transaction. The determination of any adjustment or amendment to the opening/closing price, size, value and/or quantity of the Transaction (and/or the level or size of any order) shall be at the Company's sole discretion and shall be conclusive and binding upon the Client. The Company shall inform the Client of any adjustment or amendment via its internal mail as soon as is reasonably practicable.
- 8.9 During the occurrence of a manifest error i.e. a manifest or obvious misquote by the Company, or any market, liquidity provider or official price source on which the Company has relied in connection with any transaction, having regard to the current market conditions at the time an order is placed as the Company may reasonably determine, the Company may amend the details of affected transactions to reflect what the Company reasonably determines as correct and fair and/or declare any or all affected transactions as void.
- 8.10 During periods of abnormal Market (Volatile) Conditions, during news announcements, on opening gaps (trading session starts), or on possible gaps where the Reference Asset has been suspended or restricted on a particular market, Buy/Sell Stop and Stop Loss orders may not be filled at requested/declared price but instead at the next best available price. In such case, Take Profit orders below/above Buy Stop/Sell Stop orders or Stop Loss orders above/below Buy Stop/Sell Stop orders during activation will be removed. The same applies when a trading strategy is deemed as abusive, because it is aiming towards potential riskless profit or another strategy deemed by the Company to be abusive. Accordingly, placing a Stop Loss order will not necessarily limit the Client's losses at the intended amount.

9. Margin/Leverage Level

9.1 The Margin/leverage levels applicable to the different products offered by the Company can be found on the Company's Website at [URL to be added]. If at any time the Equity falls below a certain percentage of the required Margin, specified on the Website, the Company has the right to close any or all of the Client's open positions without the Client's consent or any prior written notice to him.

The Client is responsible to monitor its account balance and keep sufficient funds in its Account in order for its open positions to remain unaffected. The Company shall have the right, but not the obligation, to start closing Client's open positions starting from the most unprofitable, when the Margin is less than 100% of the Margin requirement. In the case where the Margin is equal to or less than 50% of the Margin requirement, then Client's positions shall be automatically closed, starting from the most unprofitable, at the prevailing market price.

9.2 Margin or leverage Level may be set and varied without prior notice from time to time in the Company's sole and absolute discretion in order to cover any realised or unrealised losses arising from or in connection with transactions, including subsequent variation of any Margin rates set at the time transactions are opened. The Client can request to change his account leverage at any time by contacting the Company.

9.3 On every Friday and between the hours of 21:00 till 24:00 and occasionally before the release of major economic news, the Company may maintain a maximum leverage on remaining instruments other than FX for any new positions opened during such period which such requirement, if any, will be disclosed in the Company's website.

10.1 The Company is entitled to decline or refuse to transmit or arrange for the execution of any order in any of the following cases as applicable:

the Company does not wish to accept that order or the Company believes that it will not be able to hedge the proposed transaction or it is impossible for the order to be executed due to condition of the relevant market;

- d. where the Company suspects that the Client is engaged in money laundering activities or terrorist financing or other criminal acts;
- e. in consequence of request of regulatory or supervisory authorities or a court order;

The Company will provide the Client with an online access to his Client Account via the Trading Platform, which will provide him with sufficient information on among others order(s) status.

11.2 The Client understands that transaction confirmations are available via the Trading Platform and he will be able to access account information through the Trading Platform. Through the Trading Platform the Client may view its balance as well as all of its account activity. Introduction

The purpose of this Conflicts of Interest Policy (“the Policy”) is to outline a suitable approach and response to the identification and management of conflicts of interest. Evalanch Ltd (the “**Company**”) will take all reasonable steps to identify conflicts of interest between itself, including its managers, employees or any person directly or indirectly linked to the Company by control and its clients or between one client and another that arise in the course of providing any investment or ancillary services, or combinations thereof.

The Company maintains and operates effective organisational and administrative arrangements to prevent and manage conflicts of interest that may arise during the provision of any investment or ancillary services, from adversely affecting the interests of its clients. In case where, the aforementioned arrangements are not sufficient to ensure, with reasonable confidence, that the risks of damage to the interests of the clients will be prevented, the Company shall clearly proceed with the disclosure of such conflict. The said disclosure shall be done in a durable medium indicating the general nature and source of conflicts of interest, the risks to the client with sufficient details so as to allow the client to take an informed decision with the regards to its investment as well as the steps taken to mitigate such risks.

The Company has the right to amend the current Policy at its discretion and at any time it considers is suitable and appropriate. The Company shall review and amend the current policy at least on an annual basis to take account of changes to operations or practices and, further, to make sure it remains appropriate to any changes in law, technology and the general business environment.

Identification of potential conflicts of interest

To adequately manage conflicts of interest, the Company shall identify all relevant conflicts timeously. The Company will employ different mechanisms to ensure that all conflicts are identified.

The Company shall identify all conflicts of interest, their severity and document controls to mitigate the conflicts. It is not possible to list all situations which could constitute a conflict. The facts of each situation will determine whether the interest in question is such as to bring it within the area of potential conflict.

All employees, including management, will be responsible for identifying specific instances of conflict and required to notify the Compliance function of any conflicts

they become aware of. The Compliance Officer (CO) will assess the implications of the conflict and how the conflict should be managed in conjunction with the board.

For the purposes of identifying the types of conflicts of interest that arise in the course of providing investment and ancillary services or a combination thereof and whose existence may damage the interests of a client, the Company takes into account, by way of minimum criteria, the question of whether the Company or a relevant person, or a person directly or indirectly linked by control to the Company, is in any of the following situations, whether as a result of providing investment or ancillary services or investment activities:

- The Company or a relevant person is likely to make a financial gain, or avoid a financial loss, at the expense of the client;
- The Company or a relevant person has an interest in the outcome of a service provided to the client or of a transaction carried out on behalf of the client, which is distinct from the client's interest in that outcome;
- The Company or a relevant person has a financial or other incentive to favour the interest of another client or group of clients over the interests of the client;
- The Company or a relevant person carries on the same business as the client;

Managing conflicts of interest

The Company has established suitable and adequate internal procedures for minimising any potential conflicts of interest. The Company maintains a compliance department that is an independent unit within the Company. Among the duties of the Compliance Officer is to monitor any possible deviation from the Company's internal

policies and procedures as well as identifying and managing any possible conflicts of interest. Once a conflict has been identified it needs to be appropriately and adequately managed. The Compliance function will assess each conflict and determine if the conflict is actual or perceived and what the value of the conflict or exposure is and the potential reputational risk. Compliance will then decide whether it is viable to go ahead with the transaction or if the conflict is too severe. If Compliance decides that the particular conflict can be mitigated, then controls to manage the conflict should be put in place and documented.

The Company will manage conflicts of interest fairly, between itself and its clients, between itself and its employees and between its customers and to organise and control their internal affairs responsibly and effectively.

The Company and its employees should act as per the principle of placing clients' interests before self-interests and Company's interests in order to avoid conflicts of interest in the fulfilment of professional activities on the securities market. - There is a clear distinction between the different departments' operations as these are described in the Company's IOM.
- The Company shall be informed promptly of any personal transaction entered into by a relevant person, either by notification of that transaction or by other procedures enabling the Company to identify such transactions.
