

Bonus - Terms & Conditions

Deposit Bonus Overview

TenTrade offers deposit bonuses of up to 300%, designed to provide traders with additional equity to enhance their trading capacity. The bonus can be used to support margin and open positions across all financial instruments available on the platform. However, only trades in Forex and Gold are counted towards the calculation of lots traded. We offer both losable and non-losable cashback bonus.

Initial Deposit Withdrawable Before Volume Met	Yes	Yes	Yes
Hedging/Abuse Allowed?	Not Allowed	Not Allowed	Not Allowed

Important Disclaimers and Rights

Regarding disclaimers and rights, TenTrade strictly prohibits any misuse or manipulation of the bonus, including hedging between multiple accounts or across different brokers. Such behavior may lead to the removal of the bonus, cancellation of any related profits, or even account closure. Accounts that use capital in a limited number of trades to quickly double balances, artificially trigger stop-outs, or display other suspicious patterns will be considered in violation of the bonus terms. TenTrade reserves the right to adjust or correct bonus-related calculations, cancel bonuses or profits if abuse is detected, and close accounts found to be exploiting the bonus system or engaging in manipulation.

- **“Double-or-Nothing” Trading:** Trading patterns involving very high exposure over a small number of trades, followed by immediate withdrawals, may be subject to review to ensure that the activity is consistent with a genuine trading strategy and any misuse or manipulation of the bonus.

- **Credit / Bonus Expiry (Losable bonus)**

Clients whose account balance is zero or negative, or whose available equity is less than the credit bonus, may continue trading exclusively in credit mode for a period of up to six (6) weeks. During this time, the account may remain in a state of negative net equity. If no deposits are made within the specified period, any remaining credit balance will be removed. TenTrade reserves the right to modify or revoke access to credit at its sole discretion and without prior notice.

- **Cash Back Bonus (Non-Losable) Credit Terms**

A cashback of \$2/lot on FX or XAUUSD will be paid back into your cashback wallet.

The credit bonus is non-withdrawable. Any profits generated from trading using the bonus are eligible for withdrawal. Any losses incurred will be deducted from your account balance, not from the bonus credit.

If a client chooses to withdraw part or all of their deposit and/or profits, a proportional amount of the bonus credit will be deducted accordingly. In the case of a full withdrawal, the entire bonus credit will be removed from the account.

If the account equity falls to a level that is equal to the bonus amount provided (i.e., the client has lost 100% of their deposited capital), the bonus credit will be automatically removed. This may result in an immediate stop-out, meaning all open positions will be closed.

* **TenTrade Starter Bonus:** Only one bonus account is allowed per client. However, if a client has been stopped out and has not yet used the maximum bonus amount of USD 300, the client may contact the Helpdesk to request the remaining bonus on a re-deposit.

* **TenTrade Trading Bonus:** Multiple bonuses are allowed. Clients may request additional bonuses by contacting the Helpdesk.

* **TenTrade Cashback Bonus:** Multiple bonuses are allowed. Clients may request additional bonuses by contacting the Helpdesk.
